Academic program and course description guide

2024

Introduction:

The educational program is a coordinated and organized package of courses that includes procedures and experiences organized in the form of study vocabulary, the main purpose of which is to build and refine the skills of graduates, making them qualified to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and programs, such as the external examiner program.

The description of the academic program provides a brief summary of the main features of the program and its decisions, indicating the skills that are being worked on to provide students based on the objectives of the academic program. The importance of this description is manifested because it represents the cornerstone in obtaining program accreditation and is co-written by teaching staff under the supervision of scientific committees in scientific departments.

This manual, in its second version, includes a description of the academic program after updating the vocabulary and paragraphs of the previous manual in the light of the developments and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly) as well as the adoption of the description of the academic program circulated under the book of the Department of studies Pm3/2906 on 3/5/2023 with respect to programs that adopt the Bologna track as the basis for their work.

In this area, we can only emphasize the importance of writing the description of academic programs and curricula to ensure the proper functioning of the educational process.

Concepts and terminology:

Description of the academic program: the description of the academic program provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course description: provides a brief summary of the most important characteristics of the course and the learning outcomes expected from the student to achieve, proving whether he has made the most of the available learning opportunities. It is derived from the program description.

Program Vision: an ambitious picture of the future of the academic program to be an advanced, inspiring, motivating, realistic and applicable program.

Program message: it briefly explains the goals and activities necessary to achieve them, as well as defines the development paths of the program and its directions.

Program objectives: these are phrases that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum structure: all courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna track), whether it is a requirement (Ministry, University, College and scientific department) with the number of academic units.

Learning outcomes: a compatible set of knowledge, skills and values acquired by the student after the successful completion of the academic program and must determine the learning outcomes for each course in a way that achieves the objectives of the program.

Teaching and learning strategies: these are the strategies used by the faculty member to develop the teaching and learning of the student

and are plans that are followed to reach the learning goals. That is, it describes all classroom and extra-curricular activities to achieve the learning outcomes of the program.

1. Program Vision

The College of Physical Education and Sports Sciences seeks to prepare graduates in physical education and sports sciences to work in government departments and benefit from specialization in the practical and applied field.

2. Program message

Working to prepare and graduate leading scientific and leadership competencies in the field of physical education and sports sciences and to develop the balance of knowledge in the field of scientific research in the field of physical education and sports sciences to serve the local, regional and international community, as well as training and refining the minds of students scientifically and cognitively, and emphasizing social and cultural values and responsiveness. to local market requirements

3. Program objectives

- 1- understand football and its importance in the sports field.
- 2- Introducing students to defensive and offensive game plans.
- 3- Enabling the student to implement the planned daily training dose.

4. Software accreditation

There is no

5. Other external influences

There is no

6. Program structure

Program structure	Number of courses	Academic unit	Percentage ratio	* notes
Foundation requirements	60	2		Basic lesson

College requirements	Yes			
Department requirements	Yes			
Summer internship	There is no			
Other				

*Comments may include whether the course is basic or optional.

7. Program description				
Year / level	Course code	Course name	Approved hours	
2023/2024 third	CPE FU3	Futsal	Theory	2

8. Expected learning outcomes of the program	
Knowledge	
1- Enabling students to know the requirements for preparing player in football.	
2- Knowing how to participate in tournaments and competitions.	
3- Enabling students to analyze matches in football.	
Skills	
Enabling students to adjust the requirements of the subject from an educational standpoint.	
Values	
Developing students' abilities to	

share ideas.

9. Teaching and learning strategies

- 1- Explaining the coursework to students in detail.
- 2- Students' participation in sports topics.
- 3- Discussion and dialogue about vocabulary related to the topic

10. Evaluation methods

daily, Weekly, monthly exams and the final exam.

11. Teaching staff

Faculty members

Scientific rank	Specialization		requirements/ Special skills (if any)		teaching staff number	
	General	specific			cadre	
Assistant teacher	Physical education	football physiology			cadre	

Professional development

Mentoring new faculty members

Professional development of faculty members

12. Acceptance criterion

Direct admission

13. The most important sources of information about the program

- 1- Football for the third grades / Sabah Reda Jabr and others
- 2- Introduction to modern football tactics / Kazem Al-Rubaie
- 3- Planning sports training/Dia'a Naji Aboud
- 4- Recommended books and references, including scientific journals, reports.
- 5- Futsal / Hawkar Sallar Ahmed

14. Program development plan

To enhance the student's self-confidence in practical life, strengthen his will, develop a love of participation and cooperation, and the possibility of applying what he has learned in a future life to build an educated sports community.
